Career Objective

Detail-oriented and results-driven web developer with almost two years of experience in React JS seeking a challenging position to leverage and expand my skills. Proven expertise successful development and management of an ecommerce website. Experienced in Selenium for automation.

Experience

June 2021—February 2023

Operations Executive • Infosys

- Developed and managed a successful ecommerce website using React and Javascript, overseeing development and maintenance.
- Utilized SQL for efficient database design and management, ensuring data integrity and performance.
- Using Selenium I built out a unit testing infrastructure for a client application that reduced the number of bugs reported by the client.
- Collaborated with cross-functional teams to analyze user requirements and deliver high-quality software solutions.
- Utilized GitHub for version control, collaborating with team members and tracking changes.
- Managed and tracked project progress using Jira, ensuring timely delivery and efficient workflow.
